MLC2-DDM

Módulo SFP Multimodo

Product overview

The Westermo range of Small Form-factor Pluggable (SFP) transceivers covers versions suitable for 10/100 Mbit/s applications. LC connectors are used as standard due their small size.

These transceivers are verified to meet the Westermo environmental specification and can operate in a range of different Westermo products in harsh industrial applications. The transceivers are coded to allow confirmation that certified versions have been installed.
